3,000 BTU Half Rack
DEFENDER™ server cabinets are an efficient, self-contained cooling system ideal for use in remote locations, wiring closets, and industrial environments that don’t have cooling infrastructure already in place. Capable of providing up to 4 kW of cooling, these cabinets with NEMA rated air conditioners protect the delicate electronics inside from heat, dirt, moisture, and tampering. Simply put, these cabinets are a cost-effective alternative to installing a data center with a climate-controlled cooling system.

**Cabinet Features**
- Welded 12-gauge steel frame with 2000 static load capacity
- 28U rack space with square hole rails
- 36” depth standard 30” and 42” depths available
- Fully gasketed locking front and rear doors
- Gland plate in top for cable entry/exit
- Remote monitoring capability
- Compatible with 3,000 BTU AC units
- Cooling capacity approximately 1.0 kW

**AC Features**
- Designed to mount on the side of the enclosure while maintaining NEMA 12, 3R, 4, or 4X integrity.
- 120V / 3,000 BTU
- Digital temperature controller with alarm
- Built-in condensate evaporator
- Efficient, quiet, long lasting rotary compressor
- Environment friendly HFC refrigerant
- Easy pull-out filter
- UL Listed

**Part Number: DC-28U2436-AC3000-D**

**Please consider the following:** what are the cooling needs of the equipment that will be housed in the cabinet, what is the height and width of the smallest door or elevator on the path to installation, what is the size of the room where the cabinet will reside, and is there a dedicated receptacle -in the room- capable of handling the power needs of an AC unit. For retrofit jobs; the condition of the existing equipment, the type of rack it is currently housed in, and most importantly the length of service loop, if any, of the existing cable.

**Complete Defender Line**

3,000 BTU 1.0 kW cooling

6,000 BTU 2.0 kW cooling

8,000 BTU 2.6 kW cooling

8,000 BTU 2.6 kW cooling

12,000 BTU 4.0 kW cooling
**AC Unit**

For enclosure or panel cooling, our exclusive use of a rotary compressor allows us to manufacture the smallest, lightest weight, most energy efficient cooling solutions in the industry.

**Technical Data**

- **Vertical Mount Slim**
  - 8,000V16 BTUH - 120/230/480 VAC Air Conditioners

**Standard Features**

- Digital temperature controller with alarm.
- Built-in condensate evaporator.
- Durable 16 gauge welded steel construction.
- Efficient, quiet, long lasting rotary compressor.
- Environment friendly HFC refrigerant.
- Easy pull-out filter.
- UL Listed.
- Space saving aesthetic cabinet design.
- Designed to mount on side of enclosure while maintaining NEMA type 12, 3R, 4, or 4X integrity.

**Options & Accessories**

- Stainless Steel
- External Heat Output
- Low Ambient
- Remote Controller Kit
- Internal Heat
- Replacement Filters
- Alarm Output
- Corrosive Packages
- Crankcase Heater
